## EDUCATION

### BS IN INFORMATION TECHNOLOGY

Palawan State University  
2013 - 2018

# KENNETH ANDALES

## PHP WEB DEVELOPER

Experienced web developer dedicated to delivering high-quality web applications. Committed to driving success through innovative solutions. Seeking a challenging and collaborative role to contribute expertise and make a positive impact.

## EXPERIENCE

### PARTIME WEB DEVELOPER

📅 August 2022 - September 2022

🏢 Blue Hive PH

📍 WFH

- Developed and maintained front-end websites using Bootstrap, Sass, Tailwind, and React JS.
- Integrated APIs into the front-end applications and collaborated closely with back-end developers.
- Ensured regular updates of applications and projects by uploading them to Bitbucket and updating statuses on ClickUp.
- Actively participated in daily scrum meetings, providing progress reports to the project manager.

### FREELANCE WEB DEVELOPER

📅 January 2022 - April 2022

🏢 US Client

📍 WFH

- Developed the admin side and integrated a 3rd party API for an e-commerce platform using Bootstrap, jQuery, MariaDB, and Laravel.
- Implemented translation scripts and made necessary code modifications to accommodate minor changes on onboarding e-commerce websites.
- Improved the SEO performance of an online e-commerce website.
- Successfully handled deployment and uploaded changes using cPanel and web hosting.

### SOFTWARE DEVELOPER

📅 October 2019 - March 2020

🏢 Cloud Panda PH

📍 BGC Taguig, Metro Manila

- Assisted the team and increased productivity in developing a website using Bootstrap, jQuery, MariaDB, and CodeIgniter.
- Collaborated with another team to successfully resolve issues on an existing website.
- Actively participated in team code reviews to ensure code quality and adherence to best practices.
- Ensured timely application updates by consistently uploading changes on Bitbucket and tracking project progress using Trello.
- Made contributions to the development of an internal website application.

### JR. WEB DEVELOPER

📅 May 2018 - April 2019

🏢 International Payment Processing

📍 PPC, Palawan

- Developed an internal website application utilizing HTML, CSS, jQuery, MySQL, and Vanilla PHP.
- Deployed the application and provided end-user support and assistance.
- Maintained multiple websites, collaborated, and made significant contributions to the team.
- Ensured code updates by regularly uploading them on Bitbucket.
